Detailed site analysis

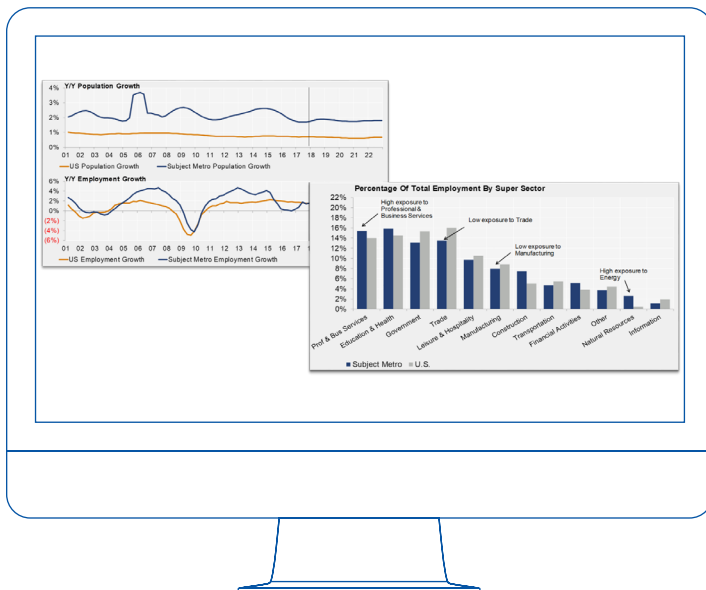

Market Question

What are the economic, demographic, and CRE fundamentals supporting my project?

CoStar Advisory Services' back-end access combines the power of CoStar data with demographic and economic variables. We provide best-in-class deal level analysis with a macro to micro level view of your ongoing projects.

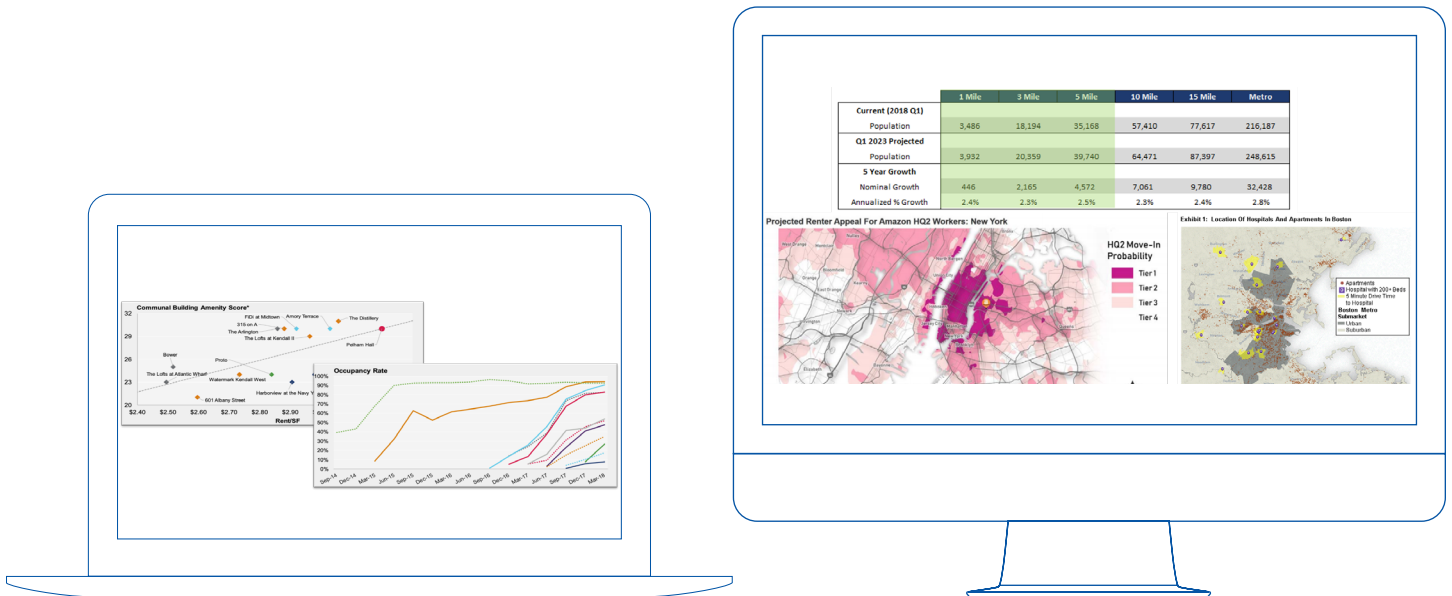

Economic and Demographic Drivers

- With our partnerships with top economic data providers, CoStar Advisory Services has access to national and market level data tailored to the analysis' requirements.
- We help you digest visual data in support of a market thesis.

Understand income levels and employment nodes surrounding your site and how these help drive potential renters

Compare your asset to existing properties based on amenities, rents and lease-up trends.
